## WHO I AM

I am a young man dedicated to web development, in different areas both back-end and front-end I am passionate about learning new things. Web development came into my life at a crucial moment; when I had the need to reinvent myself, to do something different, to get new knowledge that would allow me a better quality of life and at the same time without knowing it, put to test all the skills acquired in previous jobs, such as teamwork and communicating effectively.

*I currently have 4 years of experience as a web programmer.*
